Patient Testimonials

Shannon & Stewart, USA

"I was so happy that I could stay with my own doctor and not have to switch doctors to work with the many wonderful donors at The World Egg Bank."

Mary Ellen, Australia

"After I found the donor I'd always wanted, I felt a gratitude and a connection to her that was completely unexpected."

Wendy, Canada

"My daughter is a blessing. She may be considered a medical miracle, but she is a blessing. She is mine, and it's awesome."

Janet & Mark, USA

"The World Egg Bank took such good care of our donor. It was important to us that she understood we wanted the best for her."

About Us

Expertise and Experience

As the first Egg Bank in the world, we have over 23 years of experience exclusively managing donor services. Our history of maintaining stringent quality control systems, safe shipment of eggs, and operating with a singular focus of providing quality donor eggs, distinguishes us over any other egg bank. The World Egg Bank is the only egg bank that fully manages our entire operation from donor selection, screening, stimulation, and verification to donor ova shipping in our own state of the art facility with our own team of experts. We are the only egg bank that does not contract our operations to another network or affiliate clinic and as such, we stand behind our consistent and excellent donor ova. We offer you peace of mind in knowing that we have optimized your pregnancy goals with our quality ova.

Excellence

The World Egg Bank has the largest selection of vitrified, banked donor ova in the world. You will find your best family match with ease among our extensive database of 400 highly screened donors and thousands of banked eggs. We are available to help navigate the decision-making process. Our egg donor's full profiles are easily available to you for free online at your convenience.

Compliance

The World Egg Bank and its donors comply with legislative guidelines worldwide, as well as meeting ASRM, FDA, HFEA (UK), Canadian, and Australian compliance requirements. Our laboratory is nationally certified, including specific requirements set by the states of New York and California. Our egg donor testing exceeds any other standard criteria offered elsewhere.

Egg Donor Options & Pricing

1. Banked Cryopreserved Eggs – Immediate Availability*

Banked Cryopreserved eggs eliminate most of the variables associated with fresh eggs. Banked eggs are available immediately and eliminate the timing of a fresh cycle, unpredictable costs, and the uncertainties that exist with fresh donor cycles. In this process, the donor has already been screened, stimulated, and her eggs retrieved and frozen. Our staff will coordinate with your physician's practice to ship the cryopreserved eggs.

Pricing: \$16,500 for six mature, vitrified eggs*
\$17,500 for seven mature, vitrified eggs*
\$2,750 for each additional egg

2. Custom Choice™ Option*

Using the Custom Choice™ option, you can choose a donor from the Custom Choice™ roster; we put these donors through a cycle to ultimately send cryopreserved eggs to your clinic. The World Egg Bank will absorb all the risk and expense of the process and ship your clinic the number of cryopreserved eggs you wish to purchase. The Custom Choice™ Option brings together the convenience of the Banked Cryopreserved Egg process with the largest possible selection of egg donors. With the Custom Choice™ option we can retrieve, freeze, and ship your eggs in two to four months.

Pricing: \$16,500 for six mature, vitrified eggs*
\$17,500 for seven mature, vitrified eggs*
\$2,750 for each additional egg
\$3,000 for donor travel, if applicable

choice
giving you a choice

3. Custom Choice™ Embryo Option*

Using the Custom Choice™ Embryo Option, you can select Banked Cryopreserved Eggs or a Custom Choice™ donor from our expanded donor roster. If the donor is from our roster, we assume all the responsibility for screening the donor and for her retrieval. Either warmed cryopreserved eggs or retrieved eggs are fertilized with the Intended Parent's or donor sperm and the embryos are frozen and shipped to your clinic.

- Pricing:** \$16,500 for six mature, vitrified eggs*
\$17,500 for seven mature, vitrified eggs*
\$2,750 for each additional egg
\$3,000 for ICSI for the entire cohort
\$3,000 for donor travel, if applicable

Shipping:

\$500 US Domestic; \$750 Canada; \$1,600 International

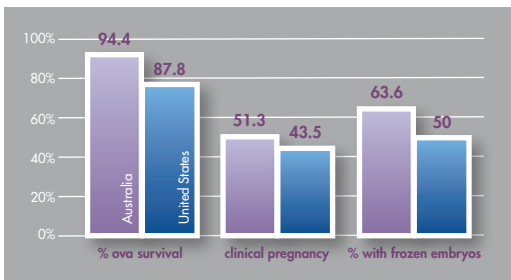

*The World Egg Bank provides a service called "verification" to your physician's practice if they have never worked with us, at no additional cost, to ensure successful thawing and fertilization of the cryopreserved eggs. A minimum of 6 eggs are needed to qualify for our guarantee.

EGG BANK®**

Pregnancy Rates

The World Egg Bank takes great pride in reporting accurate and clear pregnancy outcome data. All of our data is derived only from our vitrified, shipped ova. We do not hand pick data from larger, more experienced clinics nor do we co-mingle outcomes from a clinic's own in-house donor (fresh or frozen) program. Our pregnancy rates reflect an ongoing clinical pregnancy - we do not include biochemical pregnancies in our data.

Our rates represent only the first transfer from a cohort of 6 ova. 50-64% of our first cohort of six eggs has one or more frozen embryo for another embryo transfer, without the purchase of additional ova.

Financial Options & Assurances

Peace of Mind Payment Plan™

The Peace of Mind Payment Plan™ allows you to divide the cost of your donor selection into three equal payments over a three month period. This program applies only for services and products supplied by The World Egg Bank. You do not have to complete an application or qualify to take advantage of this payment plan.

CapexMD

We are a member of the CapexMD network, which provides competitive financing for Intended Parents working with The World Egg Bank. Currently, this is a financing option for residents of the United States only. You can visit our website to complete the free online application with next day results.

Ova Assurance™

If your shipment arrives at your clinic damaged and unusable due to freight mishandling in transit, you will receive a new cohort of eggs for free. Ova Assurance™ does not void or change any existing guarantees

EGG BANK®**

Guarantee

Our Guarantee

The World Egg Bank is the only egg bank that can ensure you receive the very best, consistent quality donor ova. We know this because we manage all of our donor recruiting, screening, stimulation, egg retrievals, vitrification, and shipping from our one of a kind medical facility that focuses solely on egg donation. We do not contract out to 'network' or 'affiliate' IVF clinics. We stand behind all of our administrative, clinical and laboratory operations, because the same experienced, highly-skilled staff does all of our work at our own facility.

The World Egg Bank offers a guarantee of one embryo with a minimum of 6 ova, or you receive a replacement cohort of 6 ova for free.
